# NORDIC NEWS

***By Lynn Gibson, TNSC Member***

The Temiskaming Nordic Ski Club (TNSC) trails are in excellent shape! The last snowfall allowed our groomers to use the pisten bully on the trails. We have six inches of base with 18-kilometres (km) of trails set with a classical track and 20km groomed. So all skate and classical skiers, enjoy! With the moderate temperatures this week, it is prime skiing weather.

## RENTAL EQUIPMENT

Skin tec skis, a recent development in classical ski technology, now provide an alternative to the no grip wax (fish scale) skis. Fish scale skis, often erroneously referred to as waxless skis, have poor glide characteristics. Skin tec skis are a good choice for skiers looking for the convenience of no-grip wax skis without noticeably compromising gliding performance.

TNSC has a range of skin tec skis for rent and as with the rest of the rental ski inventory, they are intended for skier introduction to the sport and for trying out different equipment. It is hoped that this inventory of skin tec skis will encourage more people to experience the joy of cross-country skiing. Skin tec skis, as with all other skis, need to be fitted correctly to the individual skier. For maximum enjoyment of the sport, it is important to purchase and rent skis that fit you properly.

Please note: club members who wish to try out the skin tec skis or use equipment from the rental inventory, must pay the rental fee. Club memberships do not include use of the rental equipment.

## MEMBERSHIP TAGS

Membership tags are available at the ski chalet in envelopes in a box by the door. If you have paid your membership in the last two weeks and do not see an envelope with your name on it, contact Joanne Bee-son (Membership Director) at 705-679-8614. Please pin your tag to your hat or jacket so that it is visible. Thank you!

## SAVE THE WEEKEND

TNSC is proud to again be hosting an Ontario Cup (provincial level race) from February 18-20, 2017. We need 70 to 80 volunteers (new and former dedicated volunteers are all valued and welcomed back) for the following positions:

# Who will be the 1<sup>st</sup> Baby born in Temiskaming?

- "Justice has been served." So said Lena Adams moments after the jury found Mathew Hayes guilty of first degree murder in the death of her brother Christopher Parsons.
- The weather, the volunteers and the community all got together on Saturday, December 17 to create a successful Christmas Food Drive for area food banks.
- Four men from the North Bay area have been fined in connection with ATV use and pubic land offences after accessing a Lake Temagami beach area in 2015.
- The District of Timiskaming Social Services Administration Board (DTSSAB) is looking at the possibility of putting in an elevator or lift at the apartment units building at 100 Market Street in New Liskeard.
- As the year draws to a close, local hospitals have received a little more provincial funding.
- The New Liskeard Cubs, have just 10 games left in the regular season and they're approaching the Christmas break with a "W" already under the tree.
- Our C-front this week features a story on The Temiskaming Speaker's 32-year tradition of announcing various year-end choices.

# 12 DAYS OF HOLIDAY FIRE SAFETY

Follow these tips over the Holidays to help prevent a fire tragedy in your home.

- DAY 1** *Water fresh trees daily.* It's time to trim that Christmas tree, and if you're using a real tree, buy a fresh tree and keep the base of the trunk in water at all times. Keep your tree away from any ignition source such as the fireplace, heaters or candles.
- DAY 2** *Check all sets of lights before decorating.* Before you put those lights on the tree or around the front window check the cords closely. Discard any sets that are frayed or damaged.
- DAY 3** *Make sure you have working smoke alarms.* Remember, they wear out, so replace them every 10 years. With family and friends spending extra time at your home over the holidays, you'll want everyone to be safe. It's the law to have one working smoke alarm on every storey of your home and outside all sleeping areas.
- DAY 4** *Make sure you have working carbon monoxide alarms.* Remember, they wear out, so replace them every 7-10 years depending on the manufacturer. Carbon monoxide is an invisible, odorless gas that can quickly kill you. Installing CSA-approved carbon monoxide alarms in your home can save a life.
- DAY 5** *Make sure everyone knows how to get out safely if a fire occurs.* Develop and practice a home fire escape plan with all members of the household and make sure someone helps young children, older adults or anyone else that may need assistance to evacuate. Once outside, stay outside and call 911 from a cell phone or neighbour's house.
- DAY 6** *Use extension cords wisely.* People often use extension cords for that extra set of lights or the dancing Santa in the corner. Extension cords should be used only as a temporary connection. Make sure cords never go under rugs as this can cause damage to the cord and cause a fire.
- DAY 7** *Give space heaters space.* If you are using space heaters to help take the chill off, Remember to keep them at least one metre (3 feet) away from anything that can burn such as curtains, upholstery, or holiday decorations.
- DAY 8** *When you go out, blow out!* Candles can set the perfect mood for a holiday celebration, but remember to always blow out candles before leaving the room or going to bed. Keep lit candles safely away from children and pets and anything that can burn, such as curtains, upholstery, or holiday decorations.
- DAY 9** *Keep matches and lighters out of the sight and reach of children.* People often keep matches and lighters handy to light holiday candles. But matches and lighters can be deadly in the hands of children. If you smoke, have only one lighter or book of matches and keep them with you at all times.
- DAY 10** *Watch what you heat!* The holiday season is one of the busiest times of the year, which means it's easy to get distracted from what we are doing. Cooking fires most commonly occur when cooking is left unattended. Always stay in the kitchen when cooking – especially if using oil or high temperatures. If a pot catches fire, carefully slide a tight-fitting lid over the pot to smother the flames and then turn off the heat.
- DAY 11** *Encourage smokers to smoke outside.* Careless smoking is the leading cause of fatal fires. If you do allow smoking indoors use large, deep ashtrays that can't be knocked over and make sure cigarette butts are properly extinguished.
- DAY 12** *There's more to responsible drinking than taking a cab home.* With all the festive cheer this time of year, keep a close eye on anyone attempting to cook or smoke while under the influence of alcohol. Alcohol is all too often a common factor in many fatal fires.
