“Service You Deserve, People You Can Trust.”

Stage your home like a **PRO**

(NC) Staging your home is simpler than you think, and all it takes is a bit of elbow grease, time, some rearranging and a little paint.

1. Declutter, declutter, declutter.
2. Inspire a homey feeling. Subtle personal touches reinforce that homey feeling for buyers. They start to picture themselves making memories there.
3. Keep things open and airy. Get rid of any unnecessary furniture to make the space feel larger and more open.
4. Neutral is key. Put on a fresh coat of neutral paint to help prospective buyers see themselves — and their stuff — in the space. Pillows are great design elements, just make sure they look crisp and clean.
5. Above all, practice cleanliness and tidiness. Burn some scented candles or buy some fresh flowers.

It's the little things that make the biggest difference — make sure all your light bulbs work, that your walkway is shoveled in the winter and your lawn is mowed in the summer.

simplicity in home décor

Is your décor weighing you down?

This year, one of the biggest design trends is a simple, minimalist approach. It's time to take a break from oversaturation and pare back with simple colours, clean lines and uncluttered spaces.

Do more with less: Maintain clean lines by selecting only a few pieces of furniture, accessories and colours. We crave clean and inviting spaces to rest our mind and eyes. It's important to place limits on what you include in your space. Create a serene space using only a few larger pieces rather than multiple smaller items.

Texture and form are your best friends:

To avoid feeling bare or boring, mix texture and form. Selecting different textures for furniture, rugs, drapery and even art will help add dimension to the room, while still maintaining a simple aesthetic. While using too many different shapes can throw off a room's unity, it's important to introduce a good balance of geometric and organic forms to create visual interest. An art wall is a great way to play around with form, as picture frames in different sizes and shapes can strike the right balance. Avoid too many different colours to maintain a sense of harmony.

Go white:

White walls and trim are still a go-to for designers. If you crave some colour, use it in your accents or paint your walls a pale tint. For the best results and easy maintenance, use a premium interior latex paint. White is also great for accentuating architectural details which come to light naturally in a clutter free environment. Select a different paint sheen to highlight in a subdued manner.
