Illegal dumpsites being investigated on Latchford road

By Jamie Mountain

Local Journalism Initiative Reporter

LATCHFORD – Tower Hill Road in Latchford has been the site recently of human negligence.

A pair of illegal dumpsites have been spotted along the side of the road, located just north of Latchford.

John Aitchison, a Latchford resident, was made aware about one of the dumpsites by a friend on July 20.

"I just found out about this last night, (my friend's) husband was up here on a four-wheeler and saw this and went home and told her and she contacted me," Aitchison explained to The Speaker at the dumpsite.

"I'm going to clean all of this up and I've contacted the town. They're going to let me into the dump and dump it because it shouldn't be here, you know? This is stupidity."

Among the waste dumped beside Tower Hill Road are many non-biodegradable materials, such as an old

OBITUARY

Danny Clarence Shular 1961 - 2020

It is with heavy hearts that we announce the passing of Danny C. Shular at Temiskaming Hospital on Wednesday, July 8, 2020, at the young age of only 58.

He became a resident at the Temiskaming Hospital two years ago, where he continued his fight with severe diabetes and then dialysis.

Danny was an extremely friendly man who said hello to everyone, whether he knew them or not. His laughter will be remembered by everyone who knew him as he was quite the character.

Danny was born in Toronto, Ontario, on November 20, 1961, and weighed only three pounds.

He had a strong will to live and faced many challenges as he grew up.

He was a real Dennis the Menace as a young child. As he pushed through his life, he completed high school and went on to earn an art degree which led him to sign painting. His eye for detail was his forte, with many signs painted in the Tri-Towns and area.

He was the friend who helped everyone he knew with mechanic work.

His passion was his love of all cars and trucks. He was self-taught and was always tinkering

with vehicles, thanks to his dad Clarence - they were like two peas in a pod. They always had a project on the go, with Danny by his side, teaching everything he could.

I would like to thank all his doctors and nurses who helped Danny along in this journey. Many of them were more than just staff - they became his friends as well.

Your bright light will be moving on to another realm, but your infectious laugh and dynamic personality will be whirling in for new adventures.

He was predeceased by his father, Clarence Roy Shular (1998); his mother, Shirley Ann Shular (2019); and a brother Keith and sister Christina who passed shortly after birth.

He is survived by his sister Debbie (Andre) Forget and family of Lethbridge, Alberta, and two daughters, along with many aunts, uncles and cousins.

In keeping with the family's wishes, cremation took place at Buffam Leveille Funeral Home in Haileybury.

A private memorial service will be held at a later date.

Peace Out, My Brother.

Temagami seeking input on Temagami Dry trademark purchase

By **Jamie Mountain**
Local Journalism Initiative Reporter

TEMAGAMI – The Municipality of Temagami has been presented with a unique business opportunity.

Fortier Beverages, which in recent years has bottled and distributed Temagami Dry, has made the decision not to continue producing those products.

The company now has offered the trademark and the production/distribution rights for Temagami Dry to the municipality for \$7,500.

The municipality noted that some generous donors have offered to pay for the entire purchase amount.

If the offer is accepted,

Temagami would have ownership and control of the Temagami Dry trademark, which has been bottled and sold in the area since 1916, as well as the ability to licence its production and distribution.

Trademarks also are required to be renewed every five years, which costs between \$1,000 and \$2,000.

The municipality now has three options: not purchase the trademark; purchase the trademark and associated product lines and take the necessary steps to licence their use; or do a combination of both and purchase the trademark but not do anything with it at the moment.

The municipality says it is in the final stages of approving a

strategic plan for the next few years and some recommendations by its consultant included the establishment of an economic development entity.

Part of that could be a body, separate from council, which would manage the Temagami Dry trademark and its usage.

By doing so, the municipality says there could be more economic development activity centred around the Temagami Dry trademark, provided that the necessary steps were taken.

The municipality is now seeking the community's input on what it should do regarding the trademark purchase matter. Ideas and feedback can be sent to communicate@temagami.ca.

Sharrows

What are Sharrows?

A bicycle sharrow, two chevrons painted above a bicycle symbol on the road, indicates the lane is shared by both bicyclists and motorists.

Vehicle and bicycle traffic may be in the lane. Remember sharrows do not mean that the indicated space is exclusively for bicyclists.

Bicyclists

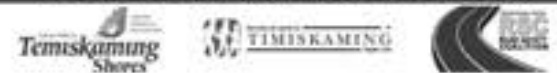

Bicyclists should "take the lane" by riding closer to the middle of the lane to reduce the risk of vehicles passing too closely.

Motorists

Sharrows closer to the middle of the lane remind you that it is unsafe to drive side-by-side with bicyclists. When bicyclists claim the lane, be patient and share the road.

Working towards **VISION ZERO:**
zero traffic fatalities and serious injuries.

NOTICE

WATER DISTRIBUTION SYSTEM MAINTENANCE

Please be notified that the Environmental Crews of the Public Works Department will be carrying out maintenance programs, flushing and testing of fire hydrants throughout the municipal water distribution systems. The work may cause some discoloration in the water; however the effect should be minimal. If a coloured water problem is encountered in your water service line, flushing the service by letting the water run for a period of time should cure the problem. If the coloured water persists, please contact the Public Works Department for assistance at 705.647.6220.

Thank you for your co-operation as Environmental Crews carry out this important maintenance activity.

PUBLIC NOTICE

OPEN AIR BURNING PERMITS

May 22, 2020 - In the wake of the COVID-19 pandemic, City and fire department officials have faced difficult decisions about how to adjust day-to-day operations in order to both protect their employees while continuing to serve their communities.

As a result of the closure of municipal buildings and facilities the City of Temiskaming Shores and the Temiskaming Shores Fire Department wants to advise all residents that all residents who obtained a Burning Permit in 2019 may continue to burn in accordance with the conditions as outlined on the open air-burning permit.

Please note, any resident requiring a new burning permit are asked to contact the fire department by calling (705) 672-3363 ext. 4701 or 4702 and leave a detailed message and someone will contact you to arrange an inspection. For tenants requesting a burning permit, you will require written permission from the property owner to have a fire. Also, there is no cost to obtain a burning as Municipal Council has waived all fees for burning permits for 2020.

Residents are reminded that you may only burn if conditions allow the fire to burn safely and all necessary steps are taken to control and extinguish the fire. All other conditions as outlined on the burning permit must be followed. Please ensure you adhere to the following burning safety tips so you can enjoy your fire and help reduce the risks to our Firefighters.

- No Day Burning - You may only burn from 6pm - 8am.
- Only Burn Dry, Woody Type Materials - Household trash, plastic or tires are illegal to burn. You may not burn grass or leaves or anything that may cause excessive smoke.
- Always Stay with Your Fire - A responsible person of 18 years of age or older must be present to supervise the fire at all times.
- Respect Your Neighbour - Don't burn where smoke will bother your neighbour or blow across roadways or hamper visibility.
- Control Your Fire - Only burn what you can effectively control. Don't even consider burning when it is windy.

When a Municipal Fire Ban or Restricted Fire Zone is in effect, no open-air burning is permitted and all burning permits are suspended.

For more information please email:
tutley@temiskamingshores.ca or

Green and glorious

Without a doubt the summer of 2020 has been a blessing.

The weather has been hot, sunny and wonderful most days.

Everything is bursting with life all around us in midsummer. Have you ever seen so many wonderful shades of green?

Can you imagine what we would have done had it been a cold, rainy and wet summer with all the COVID-19 restrictions?

I see more people and especially families enjoying the great outdoors at beaches and area parks.

They are putting down their cellphones, taking shoes and socks off and talking to each other eye to eye.

Robert Frost said, "We begin in infancy with establishing correspondence of eyes with eyes." It's beautiful.

Apparently you can't buy a canoe or kayak for miles around as retailers are sold out this summer.

I've repeatedly preached from this column pulpit about the benefits of the great outdoors on our physical, mental and spiritual health.

Who would have thought the side effects of a pandemic would reconnect us to nature and its health benefits.

Wendell Berry described being outdoors as, "The peace of wild things" and it's true.

Anishinaabe author Richard Wagamese said the key to our health, well-being and our reverence in life is connected to the land.

And yet across this region, province and world we see urbanization and deforestation taking place at an alarming rate.

Sue Nielsen

Maybe the pandemic is the epiphany we needed to realize how important natural ecosystems are to our basic survival?

Our forests, wetlands and waterways need protection as urban sprawl takes over.

Places like the Hilliardton Marsh are fine examples of wetland conservation and ornithology education.

And I've been told the Marsh may open for small group visits in the coming days.

As we move slowly out of the pandemic, happiness comes free of charge from the outdoors.

Being connected to nature may be the key to our living in balance and harmony with others.

A backyard, an empty lot, the woods at the end of your street all contain the magic of nature. The bugs, frogs, turtles, birds, the moon and stars that may be ho-hum to adults are valuable teaching tools for children.

In order to protect our green spaces we have to learn to love them starting in childhood.

On another topic I would like to send my sincere condolences to the families of Delima Dubie, Gerry Remillard and Gerald Cote.

They are flying high with the sacred eagles.

SKI SEASON

It was her first time up on water skis this summer but Amanda Hoover enjoyed the day water skiing on Bass Lake in Coleman Township while visiting her brother Dan Sargent at his cottage. (Photo contribution by Sue Nielsen)

EDITORIAL

Mandatory

The COVID-19 mandatory mask wearing guideline comes into effect on July 24 in the Temiskaming region.

The guideline suggests that people entering indoor public settings wear a mask to ward off the spread of the virus to the most vulnerable among us - the immunocompromised, the elderly and people dealing with serious health issues.

So far, in the South Temiskaming region we can be proud of how the virus has been managed by public health officials and the citizens of the region.

Our infection rates have been extremely low.

Some people are wondering why the mask wearing policy is coming into effect now when it looks like infection rates are remaining low.

People may be wondering, "If I am at low risk and don't have the virus, why should I wear a mask?"

The wearing of masks, washing hands and physical distancing are all actions to keep a second wave from appearing in our communities.

We have surfed the first wave rather successfully but the second wave of infection is what concerns public health officials.

It is now up to individual businesses, groups and organizations to enforce and/or create their own mask wearing policies that align with the public health mask wearing policy.

If we all wear face coverings we will dramatically decrease the risk of transmission of the virus that causes COVID-19. This, in conjunction with physical distancing, frequent hand washing and the use of hand sanitizer will be important actions limiting the spread of the virus as we return to our usual activities.

We are all in this together.

Trash talking

It is astonishing what people will do to our woods.

Residents of South Temiskaming are talking about the amount of garbage being dumped on back roads and in wooded areas of late.

People are seeing huge amounts of garbage dumped in the bush, and other places, that should be going to the landfill site.

Is paying \$10 or so at the landfill site for tipping fees causing all this wanton

destruction?

Because if that is the case then area municipalities should have more "no tipping fee" days other than during spring clean up weeks.

Why not make one day a month a "tip-free day"?

And if that doesn't work, then put in place stiff fines for the irresponsible people who are illegally dumping their trash all over this beautiful region.

Ontarians invited to safely enjoy summer at Ontario Place

TORONTO (Special) - The Ontario government is providing Ontario Place with \$2 million to support on-site activities, including several innovative festivals and events that give people the opportunity to safely reengage in arts and culture experiences. As the province safely and gradually reopens, these initiatives will help with the economic recovery of the arts, entertainment and hospitality sectors in Ontario.

Details were provided today by Lisa MacLeod, Minister of Heritage, Sport, Tourism and Culture Industries, during an announcement alongside leaders in the entertainment industry at Ontario Place.

“Ontario’s heritage, sport, tourism and culture industries were hit first, the hardest, and will take the longest to recover from COVID-19,” said Minister MacLeod. “As we gradually reopen the province, Ontario Place offers exciting opportunities to safely come together to enjoy arts and culture experiences, while supporting the province’s economic recovery.”

This summer’s line-up at Ontario Place includes:

- Lavazza Drive-In Film Festival will feature the latest international films from different countries including France, Spain, China, Russia, the US, the UK, Brazil, India and Canada, with a special focus on Italy. It will run until July 31.

- Toronto Shines will present the best in live entertainment, comedy and current and classic films. It is running now through October.

- DriveInTO, a new initiative launched by the City of Toronto, will offer free drive-in film screenings in August with programming by Hot Docs, imagineNATIVE and TIFF.

- Toronto Undergraduate Jazz Festival, a not for profit organization that creates opportunities for young jazz artists to showcase their talent, will present a virtual jazz festival in the Trillium Park on September 5-6.

- Toronto International Film Festival will run from September 10-19, with 50 new feature films, five programmes of short films, as well as interactive talks, film cast reunions, and Q&As with cast and filmmakers tailored to fit the moment with physical screenings, digital screenings, and at drive-ins, including Ontario Place.

In addition to the summer line-up, Ontario Place continues to offer small boat rentals and a casual dining experience at Vista Eatery, a patio overlooking Lake Ontario. Visitors can also safely enjoy the sweeping

waterfront views, trails and green space offered by the Trillium Park and William G. Davis Trail, while still practicing physical distancing.

With Ontario Place open for public use, staff and partners are working to ensure a safe and enjoyable experience for everyone. Visitors are encouraged to review the current COVID-19 updates before visiting the site and are asked to respect health and safety guidelines to help prevent the spread of COVID-19.

Businesses not able to open or resume full activities due to

Stage 3 restrictions, or businesses that have ideas to safely amend Stage 3 restrictions or requirements can visit Ontario.ca/reopen to submit a reopening proposal. Government and public health officials will review proposals and contact businesses for feedback or clarifications. Proposals may inform the potential loosening of restrictions as Stage 3 progresses. Proposals will receive initial feedback within 10 days of submission. A sector could be allowed to reopen or resume activities based on Stage 3 proposals submitted by businesses.

Practise Self-Care

Most people are fairly healthy, but as we age, we are faced with challenges, choices and risks specifically in relation to food, alcohol, tobacco and inactive lifestyles. During this recent pandemic, these risks may have increased. Unfortunately, the common result of these choices is obesity, physical inactivity, tobacco use, alcohol abuse and unhealthy diets. All of these things contribute to today’s epidemic of heart attacks and strokes, cancers, diabetes, chronic respiratory disease and other diseases. The good news is that it’s possible to reduce your risk by adjusting your lifestyle and taking better care of yourself.

Self-Care includes:

- **Knowledge & Health Literacy** – the ability to get, process and understand basic health information and services needed to make the right decisions about your health.
- **Mental wellbeing, self-awareness and prevention** – being more aware of the present moment, including your thoughts and feelings, your body and the world around you (also known as mindfulness), can positively change the way you feel about life and how you approach challenges; In terms of prevention, know your body mass index (BMI), cholesterol level, blood pressure and participate in health screening.
- **Physical Activity** – Adults aged 18-64 should try to do at least 150 minutes of moderate-intensity physical activity throughout the week.
- **Risk avoidance** – quitting tobacco, limiting alcohol use, getting immunized, practicing safe sex and using sunscreen.
- **Good Hygiene** – hand washing, brushing your teeth and washing your food, e.g. fruits and vegetables
- **Rational and responsible use of products and services (diagnostic testing and medication)** – being aware of dangers and using as prescribed.

Is self-care hard to do? Absolutely – some elements definitely are, such as quitting smoking. Small steps in a positive direction are the best way to achieve long-lasting results.

Illegal dumpsites being investigated on Latchford road

Continued from Front
toilet, signs, plastics and other household items.

"I mean the brush, it's going to go back into the earth where it came from, you know what I mean? That's not a problem, but it's this stuff here that will be here forever," Aitchison said of the non-biodegradable waste near the road.

"Once one person does this, another person's going to do it and then another, and then another."

Pete Gilboe, who serves as the bylaw enforcement officer for Latchford, told The Speaker in a phone interview that he is aware of the illegal garbage dumping sites and is currently investigating to find out who is responsible for them.

"If anybody in the public knows more about the dumping of the waste or has any tips, they can reach out to me on my cellphone at 705-648-3750 or they can email me at petegilboe3750@gmail.com," he said.

Tower Hill Road, located just north of Latchford, has unfortunately become an illegal dumping site of late. The incident is being investigated by the town's bylaw enforcement officer. (Staff photo by Jamie Mountain, LJI reporter)

Ontario Northland riders asked to wear masks

Darlene Wroe
Speaker Reporter

NORTH BAY - Ontario Northland has implemented a requirement for passengers to wear

face-coverings or non-medical masks when they board or disembark from the motor coaches, or when they are walking along the bus aisles.

They are also being encour-

aged to continue to wear their masks during the trip.

The requirement comes into effect Friday, July 24.

Ontario Northland spokesperson Renee Baker com-

mented in a telephone interview that Ontario Northland has posted the requirement on its website, and sent out e-blasts as well as installed signage at the bus stations to ensure "we've done the proper communication with passengers."

She assured that Ontario Northland is "not going to refuse transportation" to customers who are not wearing masks "but we're really hoping we can all work together to protect each other" from COVID-19.

Children under the age of two and people who have difficulty breathing for reasons unrelated to COVID-19 will not be required to wear face coverings or masks.

Passengers will be screened for possible contact to COVID-19 or possible symptoms through the use of a questionnaire before they board the

buses.

Inside the buses, passengers will find that some seats have been blocked in an effort to create six feet distancing of spacing between riders.

There are washroom facilities available on the buses, she said, and they are still available to the riders.

Many measures have been put into place to increase cleanliness and disinfecting on the motor coaches, and an anti-microbial spray has been applied inside the coaches, she added.

Ontario Northland encourages passengers to purchase their tickets in advance by visiting ontarionorthland.ca or by calling 1-800-461-8558.

Mask exemption card? It's a scam

By Pauline Kerr, Local Journalism Initiative Reporter

GREY-BRUCE – Dr. Ian Arra, medical officer of health for Grey-Bruce, advises that there is no need for a mask exemption card if someone has a health condition that keeps them from wearing a face covering or mask.

“Exemption is based on self-identification,” he said, during a July 15 virtual business information session on masks.

He stated at that time there was potential for scams – people trying to sell exemption cards. Concern over the cards led to a press release later in the week showing a fake card and reiterating that no card, doctor’s note or other document is needed under the public health order.

Under the order, people exempt from wearing face coverings include those under two years of age or under the age of five chronologically or developmentally who refuse to wear a mask; those who are unable to remove the mask without assistance; those who find it difficult to breathe while wearing a mask; and those who, for any other medical reason, cannot safely wear a mask – for example, cognitive difficulties, difficulties hearing or processing information, or respiratory disease. The Human Rights Code requires reasonable accommodation.

He stressed that a requirement for a medical note had been considered, but “we decided there was no need for it.”

Arra stressed that the goal of the public health order is “education and awareness ... there is no need for a heavy-handed approach.”

Another reason for the “softer approach” is most staff at stores “are not trained in enforcement,” he said. It is not their job to enforce public health orders.

“The order is a tool,” he said, requiring a “best effort” that would involve asking people to wear a mask, not escorting them out of the store if they refuse.

VARIOUS REASONS

There are many reasons why the goal of the province is to reopen as fast as is safely possible. In addition to economic needs, there are also social needs to consider including mental health and domestic violence.

There are lessons to be learned from other countries, he said.

Sweden initially decided to ignore COVID-19 and “let it burn through” to achieve that 70 per cent herd immunity necessary to stop the disease. This led to a significantly higher number of deaths than in neighbouring Norway and other countries, while achieving a herd immunity of less than 10 per cent. He warned that to see what happens from not following “evidenced based” measures to control the disease and opening too quickly, all you need to do is look at the United States.

Countries that implemented universal masking and banned mass gatherings have had a much lower infection and death rate.

The ultimate goal is herd immunity, achieved through a vaccine that may not be that far off. Arra said he is “cautiously optimistic” there will be a safe and effective vaccine by the end of the year, or early next year. After that, it would take three to six months to mass-produce it and immunize people.

A phased reopening depends on three things – virus spread, system capacity and testing capacity. Predicting what businesses and activities could be opened first – a good example being golf courses, where a few people gather in a large outdoor area with virtually no chance of contact, unlike bars which have crowds in a small indoor area – proved successful in stages one and two.

The province has made the decision to move to stage three, which still has some restrictions but allows more freedom. The situation will be re-evaluated in three to four weeks, Arra said. If there’s a significant increase,

going back to stage two is a possibility.

EFFECTIVENESS

The reason why mandatory wearing of masks waited until stage three is this is when they’re most effective, Arra said, explaining that in the first stage, most people were locked down in their homes. Their houses served as their masks. As more businesses opened, other protections came into play. The chance of contact is now greater, and “PPE will be helpful to carry us until we have a vaccine.”

Some of the information he and the others gave was in response to specific questions.

Arra acknowledged there is fear of COVID-19 being contracted in the workplace, but said there has been no case of the disease being transmitted to a co-worker, except in that first long-term care facility. Masks were not being worn at the time, he said.

There is no need to shut down the business and “deep clean” everything if a worker is diagnosed with COVID. He explained that by the time there’s a diagnosis, three or four days have passed and time, plus ordinary cleaning, have disinfected the area.

When it comes to effectiveness, Grey County physician Dr. Robert Basilij said if two people are in the same area under six feet from each other for five, 10 or 15 minutes, there’s a 90-95 per cent transmission rate for COVID. If the person with COVID is masked, it’s 30-40 per cent. If both are masked, the transmission rate drops to 1.5 per cent.

Basilij said there’ll be some push-back but masks are an important tool for reopening “without the disaster south of the border.”

The general consensus is social distancing and hand washing remain important, but masks have a role to play in keeping numbers down until a vaccine is available.

BUCKE-ROO CAMPING

By Robert Ritchie

With Temiskaming reaching stage 3 of Ontario’s recovery plan for combating covid-19, it opens up all the amenities that Temiskaming campgrounds have to offer. Campers can now watch and listen to their children enjoying the swings and other playground equipment that was off limits up until now.

Other amenities such as showers, closed in shelters and fish cleaning stations are also now useable, but we still must keep in mind that social distancing is still a big part of combating covid-19 along with facial coverings and washing your hands often.

Here is a few things to be on the look out for; When hiking the trails in Temiskaming please be mindful of the possibilities of walking across areas that have plants like cow parsnips, poison ivy, and giant hogweed. Cow parsnips grow 2 to 10 feet tall; they have white flowers that form like an umbrella, its leaves are in 3s and toothy with hairy stems. Poison ivy, of course, is all over Canada it’s vine can be like a shrub, its leaves are in 3’s, bright green in spring and red in the fall, leaves can be toothed, smooth, or deeply lobed and has white berries. Giant hogweed can grow up to five metres, has white umbrella-like flowers and many toothy like leaves.

So, when you are out hiking on one of the great nature trails that Temiskaming has to offer please pay close attention to the foliage that may be on or beside the trail that you are hiking on.

Nature hiking trails are so amazing with hidden beauty behind leaves and tree foliage. From multicolored mushrooms to colorful flowers and berries, not to mention birds like the ruffed grouse who will defend its area by puffing up its neck and wings. I had an encounter with one last week and they will react that way when you are close to their nest. It’s very interesting to watch especially when you’re less than 10 feet away.

It’s wonderful exploring nature on trails that exist in Temiskaming, so go out and discover a new plant, animal or just enjoy the atmosphere and the fresh air that nature trails provide.

Also campers love when visitors come to their campsite to visit and have a look around, therefore another reminder to our visitors is that in most campgrounds the speed limit is set at 10 km. One of the reasons for such a low speed is to be on the look out for children playing. They can run across a road at any time.

Drive safe and happy camping.

LA PAROISSE SAINTE-CROIX nous invite à prendre conscience et réfléchir sur notre relation personnelle avec Jésus Christ par les 7 sacrements offert par l'église catholique : le Baptême, la Confirmation, l'Eucharistie, la Confession, l'Onction des malades, l'Ordination et le Mariage. Par ses sacrements, une alliance est établie entre Dieu et nous dans nos cœurs, comme l'annonçait le prophète Jérémie (31, 31-34) : « Je mettrai ma loi, au fond de leur être, je l'écrirai sur leur cœur. Ils seront mon peuple, je serai leur Dieu ». Tél : 705-672-3296 / Adresse : 341 Sutherland Way, Haileybury, ON

PAROISSE SAINTE-CROIX SUR FACEBOOK: Consultez notre page Facebook sur [facebook.com/Paroisse-Ste-Croix](https://www.facebook.com/Paroisse-Ste-Croix) et restez au courant des derniers événements de notre paroisse catholique.

PAROISSE SACRÉ-COEUR CATHOLIQUE DE NEW LISKEARD – Nous sommes heureux de vous accueillir pour les messes dominicales les samedis à 16 h et les dimanches à 10 h. Nous offrons aussi la messe le mardi, mercredi, jeudi et vendredi de chaque semaine à 9 h à l'exception du 4emardi de chaque mois. Cette messe a lieu à 19 h. L'église et notre bureau sont situés au 116 Dymond Cres. Certaines adaptations et modifications ont été mises en place pour la protection de toutes et tous. Pour autres informations composez le 705 647-5045 ou par courriel apsacrecoeur@personainternet.com. Communiqué de PRESSE 11 juin 2020 Le diocèse catholique de Timmins se réjouit grandement de l'annonce faite par le Premier ministre de l'Ontario sur l'ouverture des églises le 12 juin prochain. Les prêtres et le personnel des paroisses ont reçu à cet égard un Protocole diocésain qui vise à assurer un environnement sécuritaire pour les fidèles, à respecter la dignité des célébrations liturgiques. Les messes dominicales reprendront les 20 et 21 juin. Les fidèles peuvent s'adresser à leur paroisse pour connaître les modalités d'accès à l'église. Press Release June 11, 2020 The Roman Catholic Diocese of Timmins is very pleased with the announcement by the Premier of Ontario regarding the reopening of churches beginning on June 12. Priests and parish staff have received in this regard the approved Diocesan Protocol which aims to ensure a safe environment for the faithful as well as the respectful celebration of the liturgy. Sunday masses will begin on June 20-21. The faithful can contact their parish for the timetable of the celebrations.

ÉGLISE CATHOLIQUE SAINTE CROIX de Haileybury est maintenant ouverte pour les messes à 30% de la capacité de l'église. Tout en respectant les conditions sanitaires exigées par le gouvernement d'Ontario ainsi que les directives diocésaines, nous vous invitons à nos célébrations dominicales samedi à 19h (7h) et dimanche à 10h et durant la semaine le mardi à 16h30 (4h30) et le mercredi, jeudi et vendredi à 9h30. L'église Sainte Croix est située à 341 Sutherland Way, Haileybury – 705-672-3296. Bienvenue à tous!
