

# INSPECTION

## Inspection of Approved Insect Pest Management Program Abitibi River, Gordon Cosens, Pineland and Romeo Malette Forests

The Ontario **Ministry of Natural Resources and Forestry (MNR)** invites you to view the MNR-approved insect pest management program and inspect the project descriptions and project plans for specific aerial insecticide projects to control the spruce budworm infestation on the **Abitibi River, Gordon Cosens, Pineland and Romeo Malette Forests** in the Chapleau, Cochrane, Hearst and Timmins Districts. Based upon the analysis of the pest management options, the MNR has approved a course of action that includes the aerial spray of insecticide on selected forest stands, starting on or about **May 19, 2021**.

The approved project descriptions and project plans for the aerial insecticide projects can be obtained electronically on the Natural Resources Information Portal at <https://nrip.mnr.gov.on.ca/s/fmp-online> beginning **April 19, 2021**.

These approved documents will remain available electronically for public viewing until **March 31, 2022** when the Annual Work Schedule expires.

Interested and affected persons and organizations can arrange a remote meeting with MNR staff to discuss the aerial insecticide project. For more information, please contact: [NERbudworm@ontario.ca](mailto:NERbudworm@ontario.ca).
