Northern College launching free health care programs

TIMMINS (Special) – to step forward and Northern College wants to address the growing shortage of skilled workers in the health care field.

In a news release, the college said it's doing its part to relieve the strain that the pandemic has placed on the sector by securing funds for workforce development, training, and retention.

It has received \$7.3 million to train up to 534 workers – tuition-free – throughout the North.

The funding is spread over two years.

"We need as many people as possible

to come back to college free of charge so that Ontario can fill these much-needed jobs at this time," said Christine

Heavens, Northern's executive director of

community, business development, employment services and Northern Training Division.

As part of the health project, Northern College will offer a suite of health care-specific training programs that are designed to connect students with available careers in the field as quickly as possible.

Northern College launching free health care programs

Continued from Front

It said the formation of the project advisory committee will see a "talent pipeline" take shape with Timmins and District Hospital, which will help train and support student placements and potential employment for graduates.

Two weeks of training will support workplace retention.

The college said the program includes wraparound support for the unemployed and the precariously employed, including those receiving Employment Insurance benefits, without impacting the funds they currently get.

Support will continue after graduation, with connections and outreach to employers.

Over the next two years, Northern College will offer four different programs to students considering careers in health care or a related field.

Each will enable qualifying students to study without the need to relocate.

They include newly designed programs for health care support service workers, food service workers and personal support worker assistants, as well as Northern's longstanding personal support worker program.

"This is an incredible opportunity for those seeking an education at a time where support has never been greater," said Heavens.

Making the commitment to pursue college-level education "can be difficult," she said.

"Nevertheless, this project is focused on helping students eliminate previous barriers to goal attainment.

"These programs are designed for maximum effectiveness, meaning that students can gain accreditation in a program like Health Care Support in 300 hours. How-

ever, not all programs will be accelerated."

In addition to these funded learning opportunities, students will also graduate with all work-related accreditation required to enter the workforce.

The college noted that the Far Northeast Training Board has identified a need in Northern Ontario for health care workers.

Almost 400 professionals are reported to be needed now, with projections for the next decade showing even larger gaps and an increased need for care as the population ages.

Northern College's programs will begin as early as this summer.

Anyone looking for more information or to apply can visit the college's website at <https://www.northern.on.ca/tuitionfreetraining/>.

STEPPING UP

Even though there was no parade planned on Canada Day in New Liskeard, local horse enthusiasts decided to organize a procession of horses through the area to celebrate Canada Day and also to pay respect to Indigenous children. Shyanne Vandermeer (left) and her mother Joanne Vandermeer of Hudson Township's Barn Boot Stables had their Paso Fino horses dressed for the occasion. (Staff photo by Darlene Wroe)

Action is needed

The west coast of Canada is burning as we speak and experiencing record high temperatures leading us to believe climate change cannot be denied.

We must act now to reduce our climate emergency by taking action now.

Canada's Net Zero Emissions Accountability Act (Bill C-12) is an important tool in ensuring we can hold current and future governments accountable for climate change action and put an end to empty promises.

Canada has missed every greenhouse gas target it has set.

However, we must give credit where credit is due as the government will require 100 per cent of car and passenger truck sales be zero-emission by 2035 in Canada.

A lofty goal considering the costs involved in those types of vehicles that the average consumer might not be able to handle.

As the summer wanes time is running out for the House of Commons and Senate to pass Bill C-12 into law.

Our climate can't wait. Just ask the people of Lytton, British Columbia, who saw their town completely destroyed by wildfire.

We have no time to waste as fluctuations in global climates wreak havoc with our lives.

The climate emergency is on our doorstep but so are the solutions if we can act with urgency.

This is a time for change of a different nature where a change of thought and behaviour is required by all of us.

Locally there is a group called Climate Action Temiskaming that has asked the City of Temiskaming Shores to form an ad hoc committee to study reductions in emissions. You may wish to be a part of this exciting committee.

The lake

Sue
Nielsen

It's never far from my mind, even during the winter months.

I think about this body of water as if she has sentient qualities.

My favourite place to be during the summer months is at the lake where I am either on it in my canoe or swimming in its velvety waters.

It has cast a spell over me and keeps me returning time and time again.

Our family has had a connection to Bass Lake going back to when my grandfather managed the beach campground in the late '40s and early '50s.

We spent our summers at the lake, oftentimes walking the train tracks to the lake picking blueberries along the way and running from the bears.

I had a place on the lake in the '90s but when a tsunami capsized my mar-

riage love boat the property was sold

It is five kilometres around the shoreline of the lake and the water is exceptionally clean and clear because it is spring fed.

Swimmers new to the lake may find the water cold even in August but it is always refreshing I say.

The lake has always been my go to place, where I feel at peace and at my best.

She can be moody but always forgiving. Maybe a little like the people who love her so much.

I have learned to know and understand spirituality because of the lake. The lake shows me mindfulness where I pay attention to the wonders of nature.

I trade my rabbit skin for that of the turtle shell, slowing down long enough to realize the turtle completes the journey but the rabbit burns itself out.

It is not about the fastest way, it is about the most meaningful way.

I see the schools of fish, green frogs harrumph from the swamp and I hear a loon wailing sending shivers down my spine.

Nothing replaces the sheer godliness of a northern sunset where the sky magically turns from pink, to orange to fiery red right before your eyes.

It is a sacred place of endless beauty demanding the utmost respect.

I notice there are a great deal more boats on the lake this year and that's a good thing.

But the bee in my bonnet comes from the personal watercrafts racing around the lake like it was the Indy 500 oblivious to swimmers, canoeists, kayakers, SUPs and nesting loons.

Some days when it's snowy and cold outside I drive down the lake road, turn around in the parking lot and dream of a time when I will be back at the lake.

I'd like to give a shout out to beach manager Dan Hackett for keeping the campground so beautiful and welcoming.

If you are lucky enough to access one of the incredibly beautiful lakes in our region, enjoy and be safe.

See you at the lake!

Ontario Family Fishing! Go Fishing with your family!

Ontario Family Fishing Event is a province-wide opportunity for Canadian residents to fish Ontario waters without the otherwise mandatory fishing version outdoors card. The Ontario Government has designated this period throughout the year as license-free:

July 3 – 11, 2021

(12:01 a.m. Saturday to 11:59 p.m. Sunday).

During all other time periods, Canadian residents between the ages of 18 and 64 years must purchase a valid fishing license to legally fish in Ontario.

There has never been a better time to go fishing with your family!

Participants fishing without a license must fish under the Conservation fishing license limits which are set out in the current Ontario Recreational Fishing Regulations Summary. With the exception of the licensing requirement, Ontario fishing regulations, fees and limits continue to apply during license-free days. Printed copies of the summary are available at licence issuers and ServiceOntario Centres

Tips for a great summer road trip

THORNHILL (Special/Staff) – Ontarians may be opting to explore destinations in their own backyard during this second pandemic summer.

To make the most out of your next road trip, CAA South Central Ontario (CAA SCO) reminds drivers to plan, prepare and always keep safety top of mind.

“Road trips can be a safer alternative and an excellent option this summer, but it’s important that we take the proper precautions before hitting the road to ensure a safe trip,” said Tony Tsai, CAA SCO vice president, communications and services, in a media release.

“Planning your itinerary and preparing your car for the summer road trip will help to prevent delays and breakdowns.”

It offers the following tips to get your car road-trip ready:

- Check your tires. Ensure the tire pressure meets the manufacturer’s recommendations to improve your vehicle’s

handling and extend the life cycle of your tires.

- Wash your car. Give your vehicle a thorough scrub. Don’t forget to clean your windshield, inside and out, and replace worn wiper blades.

- Top up your fluids. Consider packing extra summer washer fluid and change your oil if you are close to your regularly scheduled appointment.

- Clean your windshield. Clean any debris inside and out, and replace worn wiper blades.

- Check your lights. Make sure your headlights, brake lights and turn signals are working properly. If you have kids, teach them about road safety by involving them in the process.

- Test the battery. Intense heat can cause just as much havoc on your car battery as the frigid cold. If your battery is older than three years, have a professional test your car battery and replace it. CAA

Battery Service will test, boost or replace your battery.

- Pack an emergency roadside kit. Whether you buy a pre-assembled kit or create your own, it should include a few essentials including a flashlight, jumper cables, working jack, cell phone battery charger, water and non-perishable food.

To plan and prepare for stress-free travel:

- Book flexible accommodations. When looking for places to stay, search for hotels with free or flexible cancellation policies.

- Monitor local public health updates and local news. Information related to COVID-19 can change rapidly. Check for updates before leaving and while on the road.

- Be ready for a sudden change of plans. Double-check the website of your destination. Some cities or regions may still have restrictions or closures in place for people out of the area.

- Come prepared. Pack extra face coverings, gloves, and cleaning supplies – like disinfecting wipes and hand sanitizer – plus a thermometer. Bring plenty of food and water in case of breakdown.

- Have a food plan. Research local restaurants, call ahead to

find out hours of operation and COVID procedures or consider curbside pick-up.

Enjoy the great outdoors. Get outside and visit a provincial park, pack a picnic or bring extra snacks to reduce the need to stop and minimize contact.

Optimizing Snacking

Food not only provides us with the energy and the fuel we need but also produces enjoyment, identifies culture, holds tradition and creates community. Every time we eat offers an opportunity to nourish our bodies and enrich our lives.

Snacks are an important part of our daily eating habits and can help us to receive all of the nutrients we require. Incorporating delicious, nutrient-dense snack options can therefore help us to meet our daily nutrition needs and provide us with adequate energy. Below is a list of tips to help improve snacking as well as some snack ideas.

Tips for Snacking:

- **Choose a “Veggie Song”.** Cutting up vegetables and fruits ahead of time allows for easy ‘grab and go’, nutrient-dense, snack options. This task however can feel cumbersome. Choosing a 2-4 minute song, that you enjoy, allows you to set a couple of minutes aside to accomplish the task while listening to a favourite tune.
- **Store individually.** Pre-portioning non-perishable items such as whole-wheat crackers, roasted chickpeas, rice cakes and trail mix, increases the convenience of these high-fiber or protein packed options. Consider storing muffins, and/or pancakes individually in the freezer for an easy ‘grab and go’ snack to enjoy later.
- **Incorporate what you love.** This will look different for everyone and may include exploring new flavours, including cultural favourites, sharing ideas with family and friends or finding creative ways to modify old-time favourites based on health motivators.

Snack Ideas. A whole grain muffin and an orange; a hard-boiled egg and a pear; pumpkin seeds and berries on yogurt; apple slices and cheese; egg salad or labneh spread (a soft Middle Eastern cheese made from strained yogurt) on whole grain crackers.

Please contact the **Temagami Family Health Team** at **705-569-3244** for support in achieving your healthy and/or to book an appointment with the Registered Dietitian.

PREVIOUSLY SCHEDULED SECOND DOSE CLINICS STARTING THE WEEK OF JULY 19 ARE CANCELLED.

You will need to book a new appointment NOW or attend an upcoming walk-in clinic. The original appointments were made when limited vaccine supply meant that a longer interval was required.

Full vaccination is the greatest protection you can have against COVID-19 and its variants, including the Delta variant. We appreciate everyone's understanding as we adjust our vaccination program so that we can offer as much protection to as many people as possible. Rebooking appointments may take some effort, but the benefits of earlier protection are worth it!

Walk-in clinics: July 12-15. Check the clinic calendar on our website to find one near you or call the health unit for more information.

Pharmacies also carry mRNA vaccines (Moderna and Pfizer).

COVID-19 VACCINE UPDATE

LES CLINQUES DE 2^E DOSE DÉJÀ RÉSERVÉES À PARTIR DE LA SEMAINE DU 19 JUILLET SONT ANNULÉES!

Vous devrez alors réserver un nouveau rendez-vous MAINTENANT ou assister à une clinique sans rendez-vous. Les rendez-vous initiaux ont été pris lorsque l'approvisionnement limité en vaccins signifiait qu'une intervalle plus longue était nécessaire.

La vaccination complète est la meilleure protection que vous puissiez avoir contre la COVID-19 et ses variants, y compris le variant Delta. Nous sommes reconnaissants de la patience et de la compréhension de chacun alors que nous adaptons notre programme de vaccination pour pouvoir offrir autant de protection que possible au plus grand nombre de gens dans le plus bref délai.

Des cliniques sans rendez-vous : du 12 au 15 juillet. Consultez le calendrier des cliniques sur notre site Web pour en sélectionner une près de vous ou appelez les Services de santé pour plus d'informations.

STATO growing by 450 metres in Haileybury

Diane Johnston

Speaker Reporter

TEMISKAMING SHORES – Another leg of the STATO trail will be completed this summer.

The city has been awarded almost \$100,000 from a federal-provincial program to build a 450-metre stretch of the trail in Haileybury for cyclists, pedestrians and other non-motorized users.

“This project is being fully funded through the provincial and federal governments with no municipal contribution,” said Matt Bahm, Temiskaming Shores’ recreation director, in an email.

It’ll cover an extension of the trail from city hall to Albert Street along the east side of Farr Drive.

The tender was released last week with a completion date of October 1, “but is likely to be finished before then,” Bahm said.

Funding comes from the COVID-19 resilience stream of the Investing in Canada Infrastructure Program.

The federal government is contributing \$79,806 and the province, \$19,952.

One more weekend of free fishing on tap

DISTRICT (Special) - Ontario families can enjoy fishing province-wide without having to purchase a licence or carry an Outdoors Card until July 11.

“Fishing is a time-honoured tradition and terrific way for families to spend time together,” said Greg Rickford, Minister of Northern Development, Mines, Natural Resources and Forestry.

Families that take part in these activities are reminded to respect the regulations under Step 2 of the Roadmap to Reopen.

If you and your family are fishing during licence-free fishing periods or at other times, it’s important to help keep recreational fisheries healthy for future generations by:

- Following conservation licence catch limits
- Obeying size limits and sanctuaries
- Following all other fishing regulations and rules.
- Outside of licence-free fishing periods, anyone 18 and older, but under the age of 65 must have an Outdoors Card and a fishing licence.
- All veterans and active Canadian Armed Forces members residing in Ontario can enjoy free recreational fishing in the province, whenever and wherever fishing is allowed.
- Ontario’s recreational fishing industry generates \$1.75 billion annually.

NEW BEGINNINGS

The Latchford Canada Day event was moved to Saturday, July 3, and sunny skies and friendly faces made the event a successful one. For several participants, the time marks new beginnings. Emma White, 10, seen here riding behind Ken Cartner, is a new resident to the area. (Staff photo by Darlene Wroe)

STRONG TOGETHER

The Latchford Canada Day parade opened with a healing prayer by Latchford resident and Matachewan First Nation member Lynne Cormier. Cormier said this is a time of grievance due to the discovery of children's remains at former residential schools in Canada. Many survivors made it home but the feelings of trauma followed them, she said. While individuals alone are very fragile, together they can be strong, Cormier said before singing an Eagle Song as a prayer. (Staff photo by Darlene Wroe)
