## Nurturing nature and farming at Kerns school

**Darlene Wroe**

Local Journalism Initiative Reporter

KERNS - Kerns Public School, situated in the heart of Temiskaming farm country, is making the most of its connection to nature and to farming.

Teacher Joanne Goddard teaches Grades 4, 5, and 6 and has been with the school for ten years. She is also a member of the Hilliardton Marsh Research and Education Centre, where bird banding and research is carried out.

Recently she was at Riverside Farmers Market with a group of her students who were fundraising for projects, selling items such as Halloween goody bags and tulip bulbs for fall planting.

When she arrived at the school in 2012, she had just returned from an Ontario bird-banding conference where she heard worries being discussed about the decline of the snow bunting.

The school's location off Highway 65 West in Kerns Township is surrounded by farmers' fields, and it was an ideal place for snow bunting banding, said Goddard. She formed the Kerns Public School of Flock with student activities revolving around banding.

Over time School of Flock expanded to include hummingbird banding, and chickadee colour banding to help identify the populations and lifespans of the chickadees coming to the schoolyard.

The students also learned that the tree swallows are in decline, and they became involved in building tree swallow boxes and placing them along area highways as well as in the schoolyard.

Goddard explained that tree swallows are aerial insectivores and are dependent on the area's insect populations. Farming practices and a lack of habitat are affecting the insect populations, she explained.

Because most of the students at Kerns Public School are from farming families, the School of Flock began their own farming activities at the school and now have seven small gardens, the greatest of which is a pumpkin patch, said Goddard. A chicken coop has also been added.

"We have our own eggs and we do our own breakfast at the school," she said.

Lefebvre said selling poppies in person brought in over \$250 in one day supporting veterans' programs at the Legion. Legion branches across the district have distributed poppies in their communities as the annual Poppy Campaign unfolds. (Staff photo by Sue Nielsen)**

"A lot of these kids are farmers themselves so they bring a lot of knowledge. I didn't grow up as a farmer so they taught me a lot over the years."

She said of the School of Flock that "we're lucky we are in the country and we have lots of space and the

opportunity."

The connection with the Hilliardton Marsh Research and Education Centre has resulted in many of Goddard's students moving on to become

**DID YOU GET The Speaker THIS WEEK?**  
**Here are some November 2, 2022 stories...**

- The region's school boards have announced what action they are taking if CUPE employees walk off the job this week.
- Zack's Crib continues to seek funding help to complete its shelter facility in New Liskeard.
- The death toll continues to rise as COVID-19 circulates in the district of Temiskaming.
- A fatal crash in Temiskaming Shores on October 28 is under investigation by the Temiskaming OPP.
- There is still one vacancy among District School Board Ontario North East trustees in Zone A.
- The Haunting of the Fire Tower Trail event in Temagami was a frightening success last weekend.
- Cobalt has a new procedural bylaw to address council and staff, opposed by one councillor, Doug Wilcox.
- Cross-country runners from Englehart High School and Temiskaming District Secondary School are heading to the provincial championships near Uxbridge, Ontario.
- The final Get Active in Temiskaming Orange and Black event was a scary good as 63 participants turned out.
- The New Liskeard Cubs played three games last weekend, winning the first game at The Shep in front of a hometown crowd.

## WARMING UP WITH FALL BAZAARS

*The Casey Township Recreation Committee, headed by chair Gisele Lachapelle, held its first vendor show at the Notre-Dame-du-Bon-Secours church basement in Belle-Vallee October 22. Many vendors and shoppers from both sides of the border made the event a successful one. Pictured here are volunteers with Eglise Sainte-Croix in Haileybury who attended to sell items to help with their church heating bill. They are also selling tickets on a draw for the quilt hanging behind them and a \$1,000 cash draw. The draws will be held at Eglise Sainte-Croix's bazaar on November 5. # Haileybury filtration rehab on tap

**Diane Johnston**  
Speaker Reporter

**TEMISKAMING SHORES** – The bill to rehabilitate one of three filters at the Haileybury

water treatment plant will be more than \$360,000.

Temiskaming Shores council was recently informed that the aging, deteriorating filter means the system must be

backwashed more frequently.

In a report to council, environmental services manager Steve Burnett said traces of the material through which the water is filtered are also being found in an underdrain system and the clear well.

That's causing higher than normal turbidity, a measure of particulates in the water.

The city had budgeted \$300,000 for the refurbishment of one filter this year.

However, the lone sub-

mission – from Continental Carbon Group Inc. of Stoney Creek – tallied \$376,180.

Rising material costs were blamed for the higher than expected price.

Through negotiations, the cost was lowered to \$360,820.

To cover the shortfall, the city is reallocating \$100,000 from the Robert/Elm pumping station bypass project in New Liskeard, because part of that work will have to be done next year.

When the filter rehabilitation is complete, the system will run more efficiently, said Mayor Carman Kidd after council met October 4.

That still leaves two filters to be refurbished at the Haileybury plant.

The city is also looking at the installation of ultraviolet disinfection at the Haileybury sewage treatment, at a cost of some \$1.5 million, Kidd said.

"It's money, money, money," he said.

## RELIEF RESUMPTION

Artists Sally Lawrence and Rob Moir visited Cobalt recently to view their bas-relief installation on the rock face across from the Cobalt Post Office, and set plans to continue work on it next summer. Cobalt Historical Society president Maggie Wilson said the society has received a donation from the estate of Keith Calder, father of John Calder, with the express wish that work on the installation be continued. *Thank You!*

Haileybury Legion Branch 54, would like to thank our very generous volunteers who raised money, worked long hours and maintained a positive attitude to replace the old carpet in our lounge area with a clean and safe flooring product!

This project could not have been considered, if not for Grant's Home Hardware and Morgan Bowen providing us an excellent price on their products.

Finally our renovation team would like to thank Haileybury Legion members and their extended families, who came together and supported us financially, bringing well-deserved honour to their relatives that served our country.

And Temiskaming Foundation and the Temiskaming Shores and Area Rotary Club, for their Sponsorship.

## EDITORIAL

### How to bring a community together?

There are many small and large municipalities in the Temiskaming region that have either lost volunteers, had integrity commission reports that have fractured relationships, and rifts have developed over the years between citizens.

Sometimes, over time, these relationships can be repaired and people brought together through volunteerism and community spirit.

This past weekend's Haunting of the Fire Tower Trail held in Temagami on Saturday, October 29, was an event that scared up community spirit.

It was the brainchild of former Temagami councillor John Shymko, who is now the municipality's Parks and Recreation director.

He and his volunteer organizing committee envisioned an opportunity to bring people to town but to also bring people in town together.

And they not only brought people together, but they established a point

of pride in what they were doing.

Community spirit is not created in a vacuum, many hands are needed.

Between 800 and 900 people attended the fright night with many saying on social media afterwards they felt like Temagami outdid itself and the community was brought closer by this event.

And it had a charitable component when people attending the Haunting Trail event brought food and cash that was donated to the Temagami Food Bank.

If ever there is a time to celebrate resiliency and community spirit it is now, since major events had to be cancelled due to the COVID-19 pandemic.

Temagami has plenty of reasons to be proud and last weekend's The Haunting of the Fire Tower Trail event is one of them.

Congratulations to all involved in this community-building endeavour.

# What's the rush?

*"Rivers know this: There is no hurry. We shall get there someday."* A.A. Milne

As I sit down to write this week's column, I can't help but think how much of a river of sugar must be cruising through kids' bodies after a splendid night of Halloween trick or treating.

We don't get that many kids at my house, which is disappointing because I love seeing the children dressed up in their costumes.

From what I am hearing, there were record numbers of trick or treaters out this year.

I hope all the kids had a good time as the weather was outstanding for Halloween fun.

I loved seeing all the photos of the kids and parents dressed up in their creative costumes on Facebook.

One of the best had to be a baby who was dressed up as a bowl of spaghetti, with yarn for the pasta and balls of wool for meatballs.

It was so creatively cool.

Halloween is a reminder that winter is not far off and yes, Christmas is coming.

I am seeing Christmas decorations on the shelves and peo-

ple are putting up Christmas lights too.

Might as well take advantage of the nice warm weather to put up those decorations before the deep freeze comes.

The holidays can be a portal to when everything was fine and good in our world.

But I am going to pull a scrooge here and say let the holidays arrive when they do and not a moment before that.

I think Christmas has become way too commercialized.

There are those among us who avoid displaying anything to do with Christmas until the last week of November.

And specifically, until after November 11, so as to fully honour our Canadian war veterans.

However, there is no shame directed to anyone for loving Christmas. Our veterans fought and died for our freedom to put up Christmas decorations whenever we want, in July if we wish.

Strangely enough, delaying the commercialism of Christ-

mas has to do with young children.

The first term is a key period in the school year for children. It is one of the longest hauls in the school calendar and many first time learners should be taught to have wonderful open minds about the magic of the seasons.

We can't blame retailers for trying to get a jump on the most lucrative time of the retail year.

Let us remember this year might be particularly difficult for many families struggling to make ends meet.

With high inflation rates, the price of housing, food and gas,

Sue Nielsen

there are many more have-nots in our region.

It's the most wonderful time of the year may not hold true for the poor, the sick and the homeless.

Let's spend time enjoying the richness of autumn in all its glory.

## Temporary lower water levels on the Montreal River

To protect workers during upcoming maintenance/repair work at Hound Chute Generating Station on the Montreal River, Ontario Power Generation (OPG) will be lowering water levels below the normal operating range. Workers will be making repairs to the station's Obermeyer weir.

The work is scheduled to take place on **Nov. 8, 2022**, but to avoid any sudden fluctuations, OPG will begin decreasing levels as early as **Nov. 6, 2022**. Water levels will safely return to seasonal elevation after the work is completed.

We thank the public for their understanding in supporting OPG's commitment to public safety.

there are often opportunities to put in proposals for funding for different projects, but the students do most of the fundraising themselves, she continued.

Support for School of Flock also comes through the Kerns Public School community, with many people who at-

tended the school as children.

"It is a community that is unique and close," she said.

Growing gardens and raising chickens at school "really came out of being part of the Kerns community. These are things that Kerns does well already."

### Tips to Reduce the Spread of Respiratory Viruses

Everyone has a role to play to reduce the spread of respiratory viruses (such as COVID-19 and the flu). The actions you take will protect you, loved ones and those most vulnerable in your community.

We are expecting high volume pressures across our health system, now and through the winter. This is due to a combination of the usual circulating respiratory viruses, a more challenging RSV season, COVID-19 numbers that remain high, and the early arrival of the flu season. We are already seeing these impacts across the health care system, especially in our child and youth population.

### Tips to Prevent the Spread

We can layer our protection against respiratory viruses with some simple steps:

- Stay up-to-date with your vaccinations including a fall COVID-19 booster and flu vaccine, when eligible, for the best protection against getting very sick from COVID-19 and influenza.
- Even if you have had a recent COVID-19 infection, staying up-to-date with your vaccinations gives you stronger immunity.
- Socialize outdoors when possible – outdoors is lower risk than indoors.
- Wear a high quality, well-fitting mask, especially indoors, and based on the setting and situation. Masks are strongly recommended in indoor public settings, and especially if you are around people who are at higher risk or have a health condition.
- **Stay home if you are sick or have symptoms, even if they are mild.**
- If you have symptoms, get tested for COVID-19 and treatment if you are eligible.
- Wash or sanitize your hands often.
- Cover your cough or sneeze with your elbow or a tissue.
- Clean and disinfect frequently touched surfaces.
- Choose well ventilated spaces when possible.
- Reduce or limit the number of people you have close contact with, especially indoors and if you are around people who are at higher risk or have a health condition.
- Keep a physical distance when possible, especially indoors.

**If you are experiencing mild respiratory symptoms and want the opinion of a health care provider, please call your primary care provider's office first before going to the Emergency Room. Same day/next day appointments are available at most clinics.**

# Some drive while believing they are impaired: MADD

DISTRICT (Special) – Many Canadians drive after consuming alcohol, cannabis, and illicit drugs, medications (prescribed or not) or other substances for recreational purposes or to get high - even though they believe they are impaired.

That's according to MADD Canada's second National Survey On Driving After Alcohol, Cannabis, Or Drug Use.

These behaviours are elevated among young males aged 18-34.

The poll was conducted by Ipsos on behalf of MADD Canada. It asked Canadians, aged 18-70 with a valid driver's licence, about consumption of alcohol, cannabis, and illicit drugs, medication (prescribed or not) or other substances for recreational purposes or to get high, and whether they had driven while believing they were impaired by these substances.

"The survey results suggest the need for new and different education, awareness and

outreach strategies to address misperceptions, to change impaired driving behaviours, and to reduce the rate of passengers who get into vehicles with drivers who have been drinking, consuming cannabis or other drugs," said Eric Dumschat, Legal Director for MADD Canada.

• Among the 67 per cent of drivers who used alcohol in the past 30 days, six per cent drove at least once in the past six months believing they were impaired, with just over a

third (35 per cent) driving with passengers.

• Among the 27 per cent of drivers who used cannabis in the past 30 days, seven per cent drove at least once in the past six months believing they were impaired, with a slight majority (56 per cent) driving with passengers.

• Among the 16 per cent of drivers who used an illicit drug, medication (prescribed or not) or other substance for recreational purposes or to get high in the past 30 days, seven

per cent drove at least once in the past six months believing they were impaired, with a vast majority of these (83 per cent) driving with passengers.

The survey results showed that young males, aged 18-34, are the most likely group to drive after alcohol, cannabis or drug consumption.

The number of Canadians expressing some level of indifference or expressing some misconceptions regarding impaired driving continues to be of great concern.

## The importance of masking | L'importance du port du masque

COVID-19 infection is still a significant risk and cases are rising again, provincially, and locally. Masking is one of the best ways to reduce the spread while protecting yourself and those around you from infection. Please continue to do your individual risk assessment before leaving your home.

Une infection à la COVID-19 est toujours un risque important et les cas augmentent à nouveau, à l'échelle provinciale et locale. Le port du masque est l'un des meilleurs moyens de réduire la propagation tout en vous protégeant et en protégeant ceux qui vous entourent contre l'infection. Veuillez continuer à faire votre évaluation individuelle des risques avant de quitter votre domicile.

**In light of the present high levels of COVID-19 in our community, if you are in one of the following situations, it is recommended that you wear a mask, especially in indoor public spaces:**

- Around individuals showing symptoms of COVID-19
- If you are vulnerable to illness or have a vulnerable household member
- In an area with large crowds for a prolonged period of close contact
- If you have been exposed, have symptoms, or test positive for COVID-19

**En raison des niveaux élevés actuels de COVID-19 dans notre communauté, si vous êtes dans l'une des situations suivantes, il est recommandé de porter un masque, en particulier dans les espaces publics intérieurs:**

- Autour des personnes présentant des symptômes de la COVID-19
- Si vous êtes vulnérable à la maladie ou si vous avez un membre vulnérable dans votre domicile
- Dans une zone avec de grandes foules pendant une période prolongée de contact étroit
- Si vous avez été exposé, présentez des symptômes ou obtenez un résultat positif au test de dépistage de la COVID-19

Thank you for continuing to protect yourself, your family, and your community from COVID-19.  
Merci de continuer à vous protéger, ainsi que votre famille et votre communauté, contre la COVID-19.

“Beer, it’s the best damn  
drink in the world.”

# Glass show reflects on fragility and strength

**Darlene Wroe**

Local Journalism Initiative Reporter

TEMISKAMING SHORES - Carmen Cantin creates a shining view into the world of nature with her glass exhibition titled *Fragile Nature*.

If you missed the array of delicate pieces that were recently on display at the Temiskaming Art Gallery in Haileybury, you can still see her works at Laura's Art Shoppe in Cobalt and at Open Studio Libre, or by contacting Cantin directly at her Notre-Dame-du-Nord home.

The Quebec artist has been building up her deep experience with glass since 1989, and

her knowledge and love of the medium is extensive.

She can discuss the processes of glass art at length, but also acknowledges that at times, when working with the medium, it does things that seem almost magical.

Cantin's images are inspired by nature, and she approaches projects with her vast experience of how materials will respond. Sometimes she is surprised, she admits. Even what she knows will happen, she still regards with wonder.

Silver foil, for example, will appear silver in one piece, but gold in another, all influenced by factors such as the type of glass

or the thickness of the pour.

Alchemy glass, when placed in an oven, comes out gold on one side and bronze on the other, she points out.

Cantin has also created a series of waving white wall pieces, each of which depicts an aspect of life around Lake Temiskaming. The white glass waves represent the waves of the lake, she explained.

"I tried to depict everything we can see around the lake, on the Ontario side and the Quebec side: the forest in the fall, the enchanted forest, the regatta, the sailboats from Haileybury, the pine trees, the teepees for the

## NOTICE

### **WATER DISTRIBUTION SYSTEM MAINTENANCE**

Please be notified that the Environmental Crew of the Public Works Department will be carrying out maintenance of the municipal water distribution systems which includes the flushing and testing of fire hydrants starting on Monday, September 26, 2022. The work may cause some discoloration in the water; however, the effect should be minimal. If a coloured water problem is encountered in your water service line, flushing the service by letting the water run for a period of time should cure the problem. If the coloured water persists, please contact the Public Works Department for assistance at 705.647.6220.

Thank you for your co-operation as the Environmental Crew carry out this important maintenance activity.

## **Carbon Monoxide Awareness Week**

Hello everyone

This week is Carbon Monoxide Awareness Week, and we would like to present you with some safety tips. Should you have any questions, please contact the Fire Dept. Office.

### **Carbon Monoxide Alarm Tips**

#### **Testing and Replacing**

- Landlords are responsible for installing and maintaining carbon monoxide (CO) alarms in their rental units
- Landlords are required to test CO alarms in rental units annually and when the battery is replaced, changes are made to the electric circuit, or a change of tenancy occurs.
- It is against the law for tenants to remove the batteries or tamper with CO alarms in any way.
- Test CO alarms every month by pressing the test button.
- Replace batteries every year.
- Replace CO alarms according to manufacturer's instructions.

#### **Know the Sound of the CO Alarm:**

- Your CO alarm sounds different than your smoke alarm. Test both alarms monthly and make sure everyone in your home knows the difference between the two alarm sounds.
- Know the difference between the CO alarms' low-battery warning, end of life warning and an emergency alarm – consult the CO alarm manufacturer's instructions.

#### **What to do if the CO Alarm Sounds:**

- Exposure to CO can cause flu-like symptoms such as headaches, nausea and dizziness, as well as confusion, drowsiness, loss of consciousness and death.
- If your CO alarm sounds, and you or other occupants suffer from symptoms of CO poisoning, get everyone out of the home immediately. Then call 9-1-1 or your local emergency services number from outside the building.
- If your CO alarm sounds, and no one is suffering from symptoms of CO poisoning, check to see if the battery needs replacing, or the alarm has reached its "end-of-life" before calling 9-1-1.

Saturdays and Sundays: 10-3 Closed on statutory holidays.

**Fall Preschool Storytime**

The Temiskaming Shores Public Library will be offering our Fall Preschool Storytime on Wednesday mornings until November 30. This program is for preschool aged children accompanied by an adult. Preschool Storytime is a fun, interactive and social early literacy program that is a great introduction to the library and the wonderful stories it holds. The program starts at 10:00 a.m. and finishes at 10:30 a.m. at which time the adults and little ones usually socialize and choose books to borrow. We're really looking forward to seeing everyone!

**Creator Space Demo Days!**

Saturday, Nov 12<sup>th</sup> - Green Screen

Saturday, Nov 26<sup>th</sup> - 3D Printing

Saturday, Dec 10<sup>th</sup> - Button Making

On Saturday Nov. 12<sup>th</sup>, Nov. 26<sup>th</sup>, and Dec. 10<sup>th</sup> the Temiskaming Shores Public Library will be hosting demo days for select activities in its Creator Space. On each of these days, one activity will be demonstrated on a drop-in basis in the Creator Space between 10am and 3pm. All ages and families are welcome. All creations can be taken home at the end of the session.

**LEGO Challenge**

The Temiskaming Shores Public Library is pleased to present for the first time a LEGO Challenge program. This will take place on Saturday, November 19 from 10:00 a.m. until noon. The program is geared towards children aged 3 to 12 but we are flexible. Register your child(ren) by calling 705-647-4215 or email us at [info@temisklibrary.com](mailto:info@temisklibrary.com). Remember that your child will need to bring their own LEGO bricks to use at this program.

**Want to get out of the house, spend time with others and discuss some great books? This might be right up your alley!**

The library is thinking of starting an afternoon Book Club and is hoping to ascertain if there is enough interest among our adult patrons to make this endeavor worthwhile. If this is something that would interest you, please come in to see us, give us a call or email us at [info@temisklibrary.com](mailto:info@temisklibrary.com).

**Mobile Wifi Hotspot Lending program**

Need internet access? Check out a portable wifi hotspot to stay connected! The library has received funding through the Timiskaming Health Unit's Digital Divide grant program to add five new devices to our collection. Library members 18 and older may borrow a hotspot for three weeks, for free from the library--there are no fees and the data is provided by the library. The hotspots will work anywhere in the region where there is a cellular connection. Contact the library for more information!

**CO<sub>2</sub> Sensor Lending Program**

Curious about the air quality in your indoor spaces? The library has a CO<sub>2</sub> Sensor lending program, thanks to a donation by Rise of three Aranet4 Home Air Quality monitors. CO<sub>2</sub> is a gas that is produced when people exhale. As more people remain in a room, CO<sub>2</sub> levels increase quickly if there is not enough fresh air coming into the space. High indoor CO<sub>2</sub> levels can cause tiredness, headaches and other symptoms, and indicate that a space is not well ventilated. High CO<sub>2</sub> levels can also facilitate the spread of airborne infections such as COVID-19. The devices are not CO (Carbon Monoxide) detectors and are not life safety devices. Contact the library to learn more!

**Gadget Helper**

The library's gadget helper program provides one-on one help to people in learning to use their tablets, cellphones and laptops. Contact the library and let our staff person know what you would like to learn. Currently we offer weekly 45-minute timeslots on Thursdays. In the past, the gadget helper program has helped patrons with topics from learning to navigate the basics of a new device to downloading ebooks and accessing online resources and even troubleshooting hardware and software issues.

**For more information about any of these programs please call us at 705-647-4215,  
email us at [info@temisklibrary.com](mailto:info@temisklibrary.com) or**

## DID YOU KNOW? | SAVEZ-VOUS QUE?

### Vaccination after COVID-19 infection

### Vaccination après une infection par la COVID-19

If you have already been infected with COVID-19, you should still get a booster.

You should wait between 3 and 6 months to receive a booster dose after symptom onset or a positive COVID-19 test. Discussing the best timing for you with your healthcare provider is important. In certain circumstances, waiting six months may provide a better immune response.

For more information, visit [www.ontario.ca/page/covid-19-vaccines#section-4](http://www.ontario.ca/page/covid-19-vaccines#section-4)

Si vous avez déjà été infecté par la COVID-19, vous devriez quand même recevoir une dose de rappel.

Vous devriez attendre entre 3 et 6 mois pour recevoir une dose de rappel après l'apparition des symptômes ou un test positif à la COVID-19. Il est important de discuter du meilleur moment pour vous avec votre professionnel de la santé. Dans certaines circonstances, attendre six mois peut apporter une meilleure réponse immunitaire.

# Glass show reflects on fragility and strength

*Continued from 11*

native people, the mines, the canola fields, the moon on the lake, Devil's Rock, the winery on the Quebec side, Fort Temiskamingue, and the bullrushes that are everywhere."

Glass geese stand mounted on metal feet and those are her tribute to the late Indigenous artist Benjamin Chee Chee, she said, because he painted geese that way.

Often her pieces are framed in aluminum or hung on shimmering bars created by her late husband Ghislain Lemire (founder of Temisko), who died in July of this year.

"He's the one who did all the metal work for me. He was a master in the art of soldering and finishing, very professional."

Cantin said that while he fought cancer, he would ask her to envision complex projects for him to work on so that he would not think about his illness.

A beautiful pale blue art work is centred around an agate stone, and is titled *Hope*.

Cantin explained that when her husband was having chemotherapy there was a young woman that the couple knew who was also having the same kind of treatments. She expressed interest in watching as Cantin worked, so Cantin chose the large agate stone as the centre for the piece she would work on. The young woman again asked to return to watch the soldering process. After the first side was completed, she said she would come back to see the second side completed. She was confident as she left that she would be returning for another day, but she did not. She was full of hope, Cantin said, and she named the piece in memory of the young woman.

Cantin began learning the art in 1989 while living in Florida

for the summer months, learning stained glass work and soldering from local studios. In 1992 she attended a glass convention in Florida and in 1993 decided to try fusion.

"Glass is my passion," she said.

"I love fusing because it's kind of magical. You can put some colours together and it turns into another colour. You can mix the powders of enamels and it comes out as something else."

Glass is very fragile, she said.

"I depict nature, and nature is also fragile, but it is a medium that can be so strong."

Everywhere you look you will find glass.

"You can transform it but you cannot destroy it because it is all over the planet."

She continued, "It will be there forever, so it is very strong, and at the same time it is very fragile because you can break it."
