

INSPECTION

Inspection of MNRF-Approved Prescribed Burn Plan for Slash Pile Burning for Timiskaming Forest

The Ontario **Ministry of Natural Resources and Forestry (MNR)** invites you to inspect the MNRF-approved prescribed burn plan for slash pile burning that will be carried out in the **Timiskaming Forest** (see map).

As part of our ongoing efforts to regenerate and protect Ontario's forests, some recently harvested areas have been selected to be burned under the guidelines of the MNR's *Prescribed Burn Manual*. The prescribed burn will reduce the area covered in slash piles while increasing the area available for regeneration and reducing the fire hazard. The burn is scheduled for ignition between **October 1, 2023** and **December 24, 2023**.

The approved prescribed burn plan for slash pile burning, including specific locations and maps, is available for public inspection by contacting Timiskaming Forest Alliance Inc. and on the Natural Resources Information Portal at <https://nrip.mnr.gov.on.ca/s/fmp-online> until **March 31, 2024**, when the Annual Work Schedule expires.

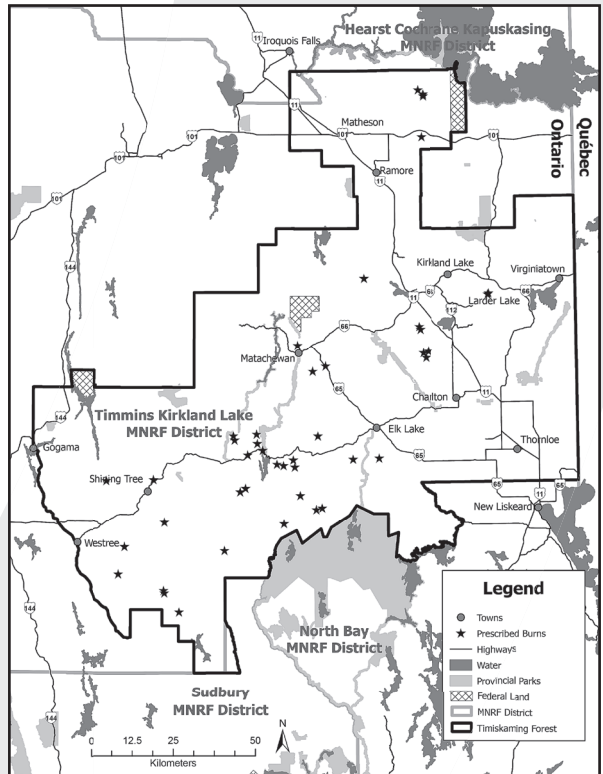

Interested and affected persons and organizations can arrange a virtual or in-person meeting with MNR staff to discuss the prescribed burn plan. For more information, please contact:
