## ESCSM hosting huge hockey tournament

**Sue Nielsen**  
Speaker Reporter

TEMISKAMING SHORES — Every available arena in the South Temiskaming region will be used to accommodate the 22 teams coming for the mega Franco-Ontarien Girls Hockey Tournament being held November 26 to 28.

Ecole secondaire catholique Sainte-Marie (ESCSM) will play host to the tournament, led by organizer Alex Bain.

The tournament promises a fun sporting experience for the teams arriving from Hearst, Timmins, Sudbury, Ottawa and Windsor.

According to Bain, the tournament is split into three divisions of play: AA, A and recreational.

Local arenas being used for the tournament include the Don Shepherdson Memorial Arena in New Liskeard, the Shelley Herbert Shea Memorial Arena in Haileybury, the Englehart and Area Arena Complex and the Temagami Arena.

Included in the tourney are three teams from ESCSM, coached by Bain and Sylvie-Andrée Duguay.

"We have two solid teams that will do very well," said Bain in an email interview.

"In the recreation division we have a young team which even includes some Grade 8 students, but the girls are energized and excited to play in front of a large home crowd.

"Our other team is in the AA division and is made up of rep players, and we are ranked near the top of the division. Out of 15 skaters, seven are in Grade 12,

**Crohn's and Colitis Awareness (Irritable Bowel Disease)**

Crohn's disease and ulcerative colitis are diseases that inflame the lining of the gastrointestinal tract and disrupt your body's ability to digest food, absorb nutrition and eliminate waste in a healthy way. In 2021, more than 300,000 Canadians were believed to be living with IBD. By 2030, this figure is expected to reach 403,000 (or 1 in 100 people).

The causes of irritable bowel disease (IBD) are very complex. They are believed to be due to a **genetic tendency (predisposition) and an environmental trigger that combine to cause intestinal inflammation.**

**What are the symptoms?**

- Abdominal pain and cramping
- Diarrhea (severe and bloody stools with colitis)
- Rectal bleeding (common with colitis)
- Nausea and vomiting
- Diminished appetite and weight loss
- Gas or flatulence
- Bloating
- Fever
- Anemia
- Fatigue

**Fast Facts:**

- Canada has among the highest rates in the world.
- Crohn's and colitis can be diagnosed at any age, but people are more often diagnosed before the age of 30.
- The number of new cases of Crohn's disease in Canadian children has almost doubled since 1995.
- Males and females are equally affected.
- Crohn's and colitis can affect any race or ethnic group
- There is no special diet for people with Crohn's or colitis.

It's not always possible to tell from symptoms alone whether you have Crohn's disease or colitis. That's why it's important to visit your health care provider for a diagnosis. If you're experiencing symptoms and think you may have Crohn's or colitis, schedule an appointment with your health care provider to find out for sure.

For more information, visit the Crohn's and Colitis Canada website at [www.crohnsandcolitis.ca](http://www.crohnsandcolitis.ca)

## Political will is needed

Northern Ontario is dealing with an out of control opioid epidemic where there is rarely a community not affected by addiction issues, homelessness and crime from drug addiction. According to a report on

CBC, Northern Ontario had five communities that experienced the highest rates of opioid-related deaths compared to the rest of the province, the highest rates of opioid usage in the province and likely the least amount of services available to treat this problem.

The Canadian Mental Health Association says 2.5 million people say they can't get the care they need.

Fifty seven per cent of people between 18 and 24 years old say they can't get the services they need or afford them.

The reality is that too many northerners are not getting the support they need in the form of mental health and addiction counselling.

However, in rural and re-

mote places in Alberta and British Columbia, there are virtual models of online counselling and addiction treatment available.

This online tool is available no matter where people live, so they can access treatment options.

The program connects people struggling with addiction and mental health issues with trained specialists.

This virtual form of treatment is perfect for rural places such as Northern Ontario, where wait lists are long for mental health and addiction treatment programs.

These online programs delivered by professionals support patients with depression, anxiety, post-traumatic

stress disorder and more.

The Ford government should adopt this virtual service for northerners and perhaps lives will be saved.

No one, no matter where they live in Ontario, should have to fight for life saving treatment options.

Recovery from addiction is possible and putting the tools into the hands of those suffering so they can get their lives back on track is a matter of political will.

Connecting people with online virtual health care services is a no brainer.

Where the government comes in is covering the costs of the programs and investing in access to high-speed internet for rural and remote communities outside of the GTA.

# Keep on paddling

Sue Nielsen

*"I can't be a pessimist because I am alive."* James Baldwin

It was, as my granny would say, "A funny old week."

Sometimes the weight of the world is heavy.

I could let weariness, despair and fear mongering ruin my day.

The American election, the war in Ukraine plus the attack on a young girl in my hometown may have left me feeling a bit deflated.

I want the racism, war, cruelty and violence changed yesterday because I know as humans we can be better in any moment in time.

My philosophy is to live within myself, to see the good, the kind and the generous in people and focus on that.

In times like this, I go to nature for solace and rejuvenation.

When there is snow on the ground and the lake is frosted over, I must seek out other sources for inspiration.

A few years ago I paddled through a storm with high winds and hail the size of golf balls pelting us in a group of 12 paddlers.

It was incredibly challenging to keep paddling in the middle of Lake Wanapitei, which is a huge body of water.

The treachery of that lake resulted in the deaths of six RCMP officers in the 1960s during a training exercise.

It was nothing to sneeze at being out on a lake of that immensity in the middle of a major summer storm in canoes.

All of a sudden the hail stopped, the wind died down and the sun broke through the clouds as if divine magic had

been sent from above.

We sat there and stared at the sky because this change happened so fast.

One minute we feared for our lives and the next we were in awe of the beautiful changing sky.

When we got to our campsite we happily stepped out of our canoes onto solid ground.

All around us we saw dozens of blueberry bushes loaded with ripe fruit.

We reached down and scooped up handfuls of the berries stuffing them into our mouths and laughing like kids.

It was much needed nourishment for our weary bodies as well as our souls.

You would think we had discovered gold - well maybe blue gold.

You rarely go into the backcountry in a canoe and not

come away with a life lesson or two. In this world of information overload, it is easy to become overwhelmed with negativity. From that trip my life lesson was that nothing is permanent and things can change in an instant. Keep on paddling and you quickly realize you had a brush with wonder and amazement.

Before you know it you are standing at the door to the temple where nature's God shakes us and says "look, listen, smell, taste and touch this sacred world" and you know you are blessed and ever so grateful.

Have a terrific week everyone.

so we have experience on the roster. Many of our girls have competed on the provincial scale of the Ontario Hockey

The benefit of playing high level hockey may bear fruit for the AA Apollos squad in the upcoming tournament,

notes Bain.

He mentioned the Apollos teams will play all of their round robin games in New Liskeard and fans are

expected to fill the stands to cheer them on.

"Everyone is welcome to come and watch the action."

There is no admission fee to view the tournament games while the complete schedule can be found on the tournament website at [www.lesapollos.ca/franco2024](http://www.lesapollos.ca/franco2024).

### CONCERT

Not all the fun will take place on the ice.

On Tuesday, November 26, from 6 p.m. to 8:30 p.m. entertainers Simon Rivard and Claude Lapointe will be putting on a concert in The Shep. At the same time on the ice there will be an All-Star competition featuring players from each team.

"Between the participants, roughly 400 players, the teachers, coaches, the volunteers and the people

from the community, we are hoping to fill the arena," said Bain.

He thanked his entire organizing committee and staff for all the hard work to get things organized for this event.

"Organizing a tournament of this magnitude is a tough task and we've been lucky to have our whole staff on board to help. Also, we have many local sponsors who have been so generous. Without their help this tournament could not take place."

The tournament is an opportunity for some of the best Franco-Ontarian female hockey players in the province to gather and play hockey with their peers and to strengthen their sense of belonging to the Franco-Ontarian community.

**LA PAROISSE CATHOLIQUE SAINTE-CROIX** nous invite à prendre conscience et réfléchir sur notre relation personnelle avec Jésus Christ par les 7 sacrements offert par l'église catholique : le Baptême, la Confirmation, l'Eucharistie, la Confession, l'Onction des malades, l'Ordination et le Mariage. Par ses sacrements, une alliance est établie entre Dieu et nous dans nos cœurs, comme l'annonçait le prophète Jérémie (31, 31-34) : « Je mettrai ma loi, au fond de leur être, je l'écrirai sur leur cœur. Ils seront mon peuple, je serai leur Dieu ». Tél : 705-672-3296 / Adresse : 341 Sutherland Way, Haileybury, ON

# Staying safe at home during the holidays

OTTAWA (Special/Staff) – Candles and fireplaces can create that holiday ambience.

But they also increase the risk of fire, and dry trees, decorations and flammable materials mean that even a small open flame can quickly escalate into a dangerous fire.

The Canada Safety Council is encouraging the public to be mindful of the hazards and ensure they enjoy a safe and joyous holiday season.

Open flame and cooking equipment are the two leading causes of residential fires, according to Statistics Canada data cited by the

council.

Home fires accounted for three-quarters of the 202 fire-related deaths in Canada in 2021.

“A little caution goes a long way,” said Gareth Jones, the council’s president and CEO, in a news release.

“Taking the time to secure open flames and adopt safe practices can prevent tragedy and allow families to enjoy a safe holiday season.”

The council offers the following tips to safeguard homes from fire:

- Keep candles in non-flammable holders and

away from combustible items including curtains and holiday decor. Extinguish them when leaving the room or before bed.

Consider using battery-operated candles instead of traditional ones to reduce the risk while retaining that warm glow.

- Use a fireplace screen to contain sparks, and never leave a fire unattended. Ensure the fire is fully out before going to bed.

It’s also a good idea to arrange for annual chimney cleaning if using a wood-burning fireplace, as creosote

build-up is a common cause of chimney fires.

- A dry Christmas tree can ignite in seconds. Water it daily or consider an artificial tree if you’re unable to keep it hydrated.

Place it away from heat sources like fireplaces and space heaters.

- Check holiday lighting for frayed wires or broken bulbs. Avoid overloading outlets, which can lead to electrical fires, and ensure outdoor lights are weatherproof and rated for outdoor use.

- Have a fire extinguisher near areas with open flames,

such as the kitchen or fireplace. Familiarize yourself with its use and check it regularly.

- Test smoke and carbon monoxide alarms monthly. Replace batteries as needed and ensure that an alarm is installed on every floor and outside each sleeping area.

- Supervise kids and pets, because they’re drawn to the allure of open flames. Establish a “kid-free zone” around fireplaces, stoves and candles to prevent accidental contact.
